

Bespoke research software

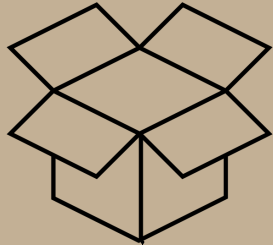

🤔 pre-submission inquiry

Fit based on our criteria

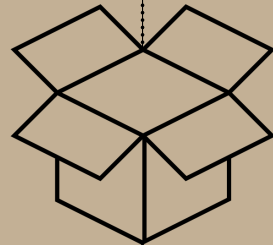

peer-review 🙄

for usability, quality, and style based on our guidelines

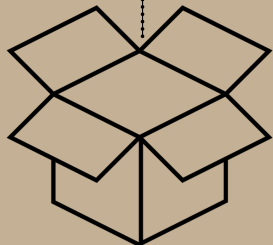

pre-submission inquiry

Fit based on our criteria

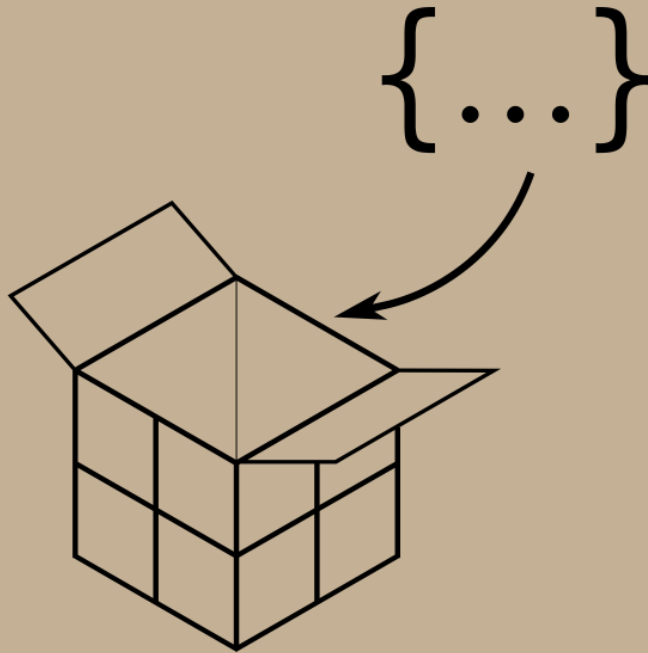

Peer-review 🙄

evaluate the package for usability, quality, and style based on our guidelines

Acceptance 100

Packages are badged and added to our system

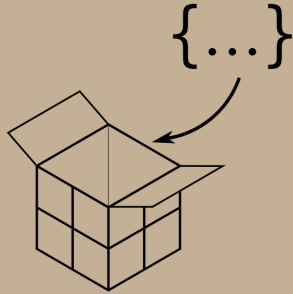

Open & non-adversarial.

Comes with a code of conduct

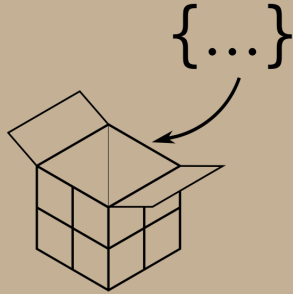

No rejections (only out of scope)

Make the process constructive for everyone involved.

Lessons learned

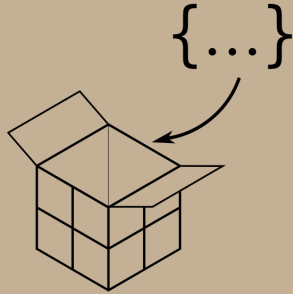

“I don’t really see myself writing another serious package without having it go through code review.”

Lessons learned

Reviewers take 1-10 hours per package (~ 4 hours / software package)

We are helping drive best practices with our author base

Challenges

Scaling
